Confinement is a major event in women life.

According to medical studies, it is believed if women do not receive good medical care after labour, the aftermath could be complex health problems. We endevour to aid post-delivery women to recuperate rapidly during the confinement month. We specially formulate the 28 days confinement herbal soup to assist women in replenishing the blood and energy loss during delivery.

Originating from the TCM's yin and yang and balance of "Qi", our herbal soup concoction focus on nourishing blood, enhancing breast-milk, increasing vitality, calming nerves, hair boost and weight loss, ensuring that post-delivery women receive sufficient nutrients and recuperate rapidly during the confinement month. With adequate care, careful dietary and nutrients replenishing herbal soup, it is possible to correct and improve the post-delivery women's body and physique.
